

STEPFOLD PODIUM 3 SWING GATE

STEPFOLD PODIUM 3 SWING GATE

The new unit offers a platform height of 2m, working height of 4m and incorporates a specially designed inclined ladder to allow safe access to the working platform.

This podium is ideal for a variety of jobs on site or domestically. Including painting, decorating, plastering, alarm installations, ventilation on high ceilings and any other trade jobs that might require a slightly higher reach.

Suitable for both internal and external applications, the Stepfold Podium 3 is easy to assemble and ready to use within minutes. With a built in folding system whereby the unit can be folded flat, the unit is easy to manoeuvre and transport.

The Stepfold Podium 3 has been very well received within the hire industry making it a very successful addition to the Euro range products.

Stabilisers are included with every unit.

	Stepfold Podium 3
Platform Height	2m
Safe Working Load	150Kg
Dimensions	0.9m x 1.2m
Unit Weight C/W Stabilizers	56Kg

Step by step guide

Open the unit on a firm and level base, lock the folding section.

Fit the main platform on the 8th rung as shown.

Ensure that the castors are in the braked position.

Fit 2 diagonal braces from the 1st to the 4th rung of the podium in a cross pattern.

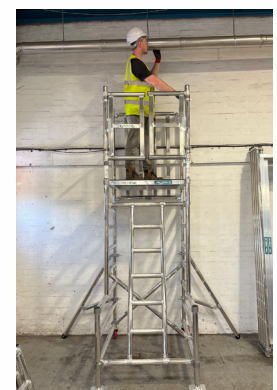

Fit the ladder 1 rung below the working platform. Pivot the rung until the hook is facing downwards and clip into place.

Fit stabilizers on both sides of the unit.

Access the platform using the step platform and ladder, keeping 3 points of contact with the unit at all times.

Dismantle in reverse.

Always work on the podium with the folding gate facing the work area
When leaving the podium, always descend facing the folding gate
